Meet the Challenge; Embrace the Opportunity

In a recent meeting with some industry colleagues, our discussion turned to the Great Resignation and the reality of a future that will most certainly be marked by a hybrid workforce. The implications of both are profound for talent development professionals.

We have already begun to see an aggressive competition for talent in 2022 and we expect that to continue. Continuous training, upskilling and reskilling is not only needed but desired by employees, and leaders will need to commit to allocating resources for the strategic development of their people in order to attract and retain the best. We know too that Gen Z values learning and expects to be provided learning opportunities and career mobility.

Are you ready to meet the challenge?

Our field has also grappled with new ways to deliver learning experiences. Hybrid learning is here to stay and talent development practitioners will be expected to be adept at it. Improving the virtual and asynchronous learning experience—from design to facilitation—is critical. However nothing beats in-person learning—giving people a reason to attend in-person courses because of the rich human experience of connecting in a classroom will be a differentiator.

Now more than ever, it is essential that talent development practitioners invest in their own growth. At ATD, we’ve been researching future practices for creating elevated and strategic learning experiences that deliver business impact and results. Our course portfolio has expanded significantly to meet the challenges faced by today’s L&D professionals.

The catalog you are reading offers you insights into ATD’s learning philosophy and our framework for developing your capabilities. You’ll see a selection of courses highlighted that will give you a taste of the myriad programs we have to help you upgrade your knowledge and skillset. From training and facilitation to instructional design, from coaching to change management, you’ll find certificate programs that meet you where you are and help you reach the next level of proficiency.

Over the past two years, we’ve also expanded our own capabilities to deliver world-class learning experiences across modalities. Whether you prefer to learn in-person, live online, or in an on-demand context, you can find programs to fit your needs and your budget.

We’ve witnessed a sea change in our field from the start of the pandemic through today. Learning has been catapulted into a strategic spotlight. We’re being asked to help navigate the path forward in our organizations. That preparation comes through our own learning and development.

ATD is here to partner with you on your road to growth and success. And we look forward to seeing you in one of our programs in 2022.

Choose the Right Certification

The **Associate Professional in Talent Development (APTD)** is a certification for TD professionals who are in the early parts of their careers or whose professional roles and aspirations are focused on foundational areas of the field.

**WHO IS IT FOR?**
APTD is best suited for early career talent development (TD) professionals:

- Who want to formalize and recognize their role with a certification
- With at least three years of experience

Many of our APTD candidates are “accidental trainers” without formal education in training and development.

The **Certified Professional in Talent Development (CPTD)** is a certification for more experienced TD professionals. It is broad and measures a professional’s knowledge and skill application across the breadth of talent development capabilities.

**WHO IS IT FOR?**
CPTD is best suited for seasoned TD professionals:

- Who have deep knowledge and experience enhancing employee talent development
- Who are looking to demonstrate expertise and commitment to the profession
- With at least five years in workplace learning and talent development

ATD offers prep resources and courses for both the APTD and CPTD certifications. From our Talent Development Body of Knowledge to a comprehensive course bundle, including both 12-month access to an on demand course plus a supplemental two-day instructor-led workshop, ATD has the right option to fit your needs.

Let us Help You Prepare.

ATD offers a number of tools to help prepare for the CPTD or APTD, from practice tests, to the Talent Development Body of Knowledge (the definitive industry resource), to our Certification Prep courses. ATD Master Instructional Designer® Program 
Updated Content, New Format!

The role of an instructional designer is evolving, expanding, and more in demand than ever. Today's designers need an expanded skill set that includes business acumen, consultative approaches, design approaches based on learning sciences, and technology expertise. Designers must pivot between designing for multiple modalities as well as implement solutions via multiple media streams. Armed with a broader skill set, instructional designers have the flexibility to be the jack-of-all-trades and a much-requested strategic resource for organizations.

Aligned to the Talent Development Capability Model, this advanced-level program covers the entire process of analysis, design, development, implementation, and evaluation of learning programs across all modalities (face-to-face, e-learning, virtual, or a blend). Explore new design models and techniques, evaluate real-world projects, and work with expert facilitators in this eight-week online program.

WHY SHOULD I ATTEND?

- Develop and demonstrate mastery of instructional design through a multi-part, real-world project, including individualized feedback and analysis.
- Gain six-months of free access to ATD's comprehensive Talent Development Body of Knowledge and receive tools, resources, and templates to use on the job.
- Receive personalized feedback from your facilitator and peers.
- Earn the industry recognized ATD Master Instructional Designer designation and digital badge.
- Accelerate your pathway toward achieving the APTD or CPTD certification.

HOW THE PROGRAM WORKS

- Learn research-based best practices from across the Talent Development Capability Model to elevate your instructional design skills.
- Over the course of eight weeks, engage in a flexible, around-your-schedule program via ATD's online learning platform.
- New content is available each week for you to complete in your own time; expect to spend an average of three-and-a-half hours per week.
- Benefit from the guidance of an expert ATD facilitator.
- Personalize your Master Instructional Designer journey by assessing your current skills, taking a deep dive into content most relevant to you, and demonstrating success with a multi-part, real-world project.

Blended Learning Certificate

Go beyond traditional classroom learning.

Learn to incorporate a mix of delivery methodologies to reach your learners at their moment of need. This blended learning training program models the concepts taught in the workshop. First, you’ll complete a prework assignment and then continue working on it throughout the course. Later, you’ll reconvene with your cohort in an online session following the classroom-based workshop. By adapting your own training program to a blended format as the course unfolds, you’ll enhance your ability to apply blended learning models on the job.

WHY SHOULD I ATTEND?

• Learn best practices for selecting and using the appropriate mix of innovative learning technologies to design effective blended solutions.

• Design a complete blended learning program using an ATD-exclusive process and templates.

• Anticipate and navigate successfully the challenges associated with blended learning.

Change Management Certificate

Become a change leader, facilitator, and communicator.

It’s likely you already see the need to apply change management best practices. By earning an ATD Change Management Certificate you’ll gain the necessary tools to become a trusted resource ready to facilitate all stages of a change initiative in your organization. Discover the key principles and stages of ATD’s exclusive change management models through application exercises, case studies, and interactive program modules.

WHY SHOULD I ATTEND?

• Prepare to sponsor and engage in change efforts, conduct diagnostic assessments to define needed change efforts, identify an appropriate change model, and design a strategic change plan that minimizes impact and maximizes buy-in.

• Develop communication plans that raise awareness, build commitment, and ensure understanding while navigating and managing outcomes as they occur.

• Analyze data to provide feedback to help clients clarify outcomes, establish expectations, and identify realistic boundaries.

Learning Technologies Certificate

Maximize your talent development initiatives with the right technology and tools.

From learning management systems to virtual classroom platforms to e-learning tools, learning technologies big and small are essential for modern training initiatives. A learning technology ecosystem includes these platforms, tools, and more. We define the ecosystem as the various learning technologies and infrastructure that are used to execute an organization’s talent and development strategy.

We talk about learning technologies as an ecosystem because a singular tool or platform can rarely support all of an organization’s needs and its people. An array of choices is available to enhance your learning experiences. Thoughtfully integrating the right tools leads to greater knowledge acquisition and skills application on the job and overall positive outcomes for the learners.

This course will give you the knowledge and tools to source and evaluate learning technologies as well as the knowledge and skills you need to conceptualize a holistic learning technology ecosystem. We’ll explore e-learning and learning delivery software, data standards, user experience design, extended reality, artificial intelligence, and accessibility considerations. This program will provide you with access to ATD-exclusive templates and tools that you can apply immediately to develop your own learning technology ecosystem architecture.

WHY SHOULD I ATTEND?

- Discover common practices and approaches for identifying, selecting, implementing, and maintaining learning technologies that will enhance your learning and talent strategies.
- Get techniques for assessing, defining, and articulating technology requirements.
- Learn how to configure and support a learning technology ecosystem that meets your organization’s needs along with its talent development goals.
- Become a valued learning tech resource for your organization or the organizations you support.

Training & Facilitation Certificate

The premier train-the-trainer program.

This training certificate course covers the entire end-to-end training cycle, including planning and preparing a training event, managing the learning environment and engaging participants in the classroom, and following up post-event to continue to support learning. We’ll cover the science behind learning as well—why and how learner needs and preferences, training techniques, classroom environment, and well-structured materials all affect learning outcomes. At the end of the course, you will have the opportunity to demonstrate your techniques in a skills training practice where you will receive feedback and guidance from peers and an ATD expert Facilitator.

ATD’s Training Certificate, the best-established train-the-trainer course in the talent development field, is now Training & Facilitation Certificate. Drawing upon ATD’s extensive research and experience, this program will help you become a learner-centric facilitator who recognizes and can apply all of the skills of an effective trainer.

WHY SHOULD I ATTEND?

- Get an overview of all phases of the training cycle from the planning phase through the evaluation phase.
- Leave with the knowledge and skills to become a participant-focused facilitator in any environment, from large-scale training events to meetings and presentations.
- Learn from a master trainer and facilitator who will demonstrate best practices in the classroom.
- Demonstrate your new skills and receive personalized, actionable feedback from your ATD expert facilitator.

“My favorite takeaways would have to be: You can’t teach someone, but you can help them learn, along with many effective ways to get your participants engaged in the information.”

Virtual Instructional Design Certificate

Design engaging training for the virtual classroom.

Intentional and thoughtful instructional design is necessary for successful virtual learning events. Well-designed virtual experiences supported by well-designed materials, keep learners motivated and engaged throughout the learning experience.

An effective instructional design process follows a system of assessing needs, designing instruction, developing materials, and evaluating effectiveness. Creating programs for a virtual platform is no different. Core instructional design fundamentals require the analysis and selection of the most appropriate strategies, methodologies, and technologies to maximize the learning experience and knowledge transfer—whether you are converting a face-to-face classroom course or designing for a virtual delivery from the beginning.

This certificate program will provide you with more than 20 ATD-exclusive tools and templates and the opportunity to practice using them on a flexible, authentic learning project. Your project allows you to demonstrate your new skills in writing effective learning objectives, outlining a virtual learning event, and more.

WHY SHOULD I ATTEND?

- Discover actionable best practices for virtual classroom instructional design.
- Gain access to a collection of more than 20 tools and templates you can use in your own practice.
- Apply your new knowledge and skills on an authentic learning project for virtual instruction and receive feedback from an ATD expert facilitator.

Virtual Training & Facilitation Certificate

Deliver meaningful training in the virtual classroom.

Training and facilitating in the virtual classroom require planning and preparation if facilitators want to motivate and engage learners. A successful learner-focused event goes beyond an informational webinar and requires a facilitator to understand the learners’ needs and create a welcoming and inclusive virtual space.

Learn how to select learning methods and facilitate activities in a virtual environment that will keep learners engaged throughout the event and prepare them to apply what they have learned on the job. Explore techniques for building rapport and connecting with learners in the virtual environment.

This certificate program will provide you with ATD-exclusive tools and templates as well as the opportunity to demonstrate your new skills and receive feedback from your expert facilitator and peers. Practice skills in an authentic simulation where you will receive feedback and guidance from peers and an experienced ATD facilitator.

WHY SHOULD I ATTEND?

- Discover actionable best practices for virtual classroom instructional design.
- Gain access to a collection of more than 20 tools and templates you can use in your own practice.
- Apply your new knowledge and skills on an authentic learning project for virtual instruction and receive feedback from an ATD expert facilitator.
Writing for Instructional Design and Training Certificate

Improve the quality of your learning programs through clear, engaging writing.

Like most instructional designers and developers, you probably spend about 80 percent of your working hours writing, so it’s important that your writing is persuasive to gain buy-in from stakeholders, crystal clear to ensure understanding, and engaging to aid learning transfer. This writing style is an art and having these skills can give you a competitive advantage as your career grows.

Discover how to use rhetorical writing techniques to articulate desired training outcomes when you earn this instructional design writing certificate. Learn through hands-on practice how to write to clarify, simplify, illuminate, and explain. Find out how to use tone, point of view, and personality to keep your audience actively engaged.

WHY SHOULD I ATTEND?

- Develop effective writing techniques so you produce content faster and improve your learning programs.
- Learn to tailor your writing to the appropriate modality, format, and audience.
- Master editing to clarify your message and reduce cognitive load.

E-Learning Instructional Design Certificate  🔴BESTSELLER

Design e-learning courses that drive results.

This program provides an opportunity to explore and implement the ATD E-Learning Design Model. You will see examples and practice the skills needed to develop asynchronous e-learning experiences that motivate learners to examine and adjust their behavior. Take advantage of opportunities to practice designing effective e-learning, investigating and applying instructional methodologies that support learning, and incorporating best practices into your own projects.

WHY SHOULD I ATTEND?
- Gain practical experience applying the ATD E-Learning Design Model.
- Apply instructional design principles to e-learning design in a purposeful way.
- Explore ways to present, structure, and sequence content that is learner centric.
- Learn a variety of techniques for enhancing learning motivation and commitment.

Instructional Design Certificate  🔴BESTSELLER

Leverage exclusive ATD tools and templates to develop the most powerful, bottom-line focused learning.

You’ll learn best practices for conducting a needs assessment, completing a job/task analysis, and designing and developing courses using exclusive ATD templates. Discover a structured step-by-step process you can follow and apply immediately to your own training program development.

Earning this instructional design certificate gives you easy access to tools you’ll put to great use in your training initiatives. You’ll learn to design a complete program that aligns with your business goals, including participant guides, instructor guides, visual support, and other materials. In addition, you’ll have an opportunity to work on your own real-world program throughout the course.

This certificate is aligned with the instructional design capability of the Talent Development Capability Model, which serves as the foundation for ATD Certification Institute’s Master Programs and APTD and CPTD certifications.

Want to level up? Explore the ATD Master Instructional Designer® Program.

WHY SHOULD I ATTEND?
- Construct questions to stimulate conversations, understand the importance of staying on topic, and recognize environmental characteristics that encourage interaction.
- Acquire resolution strategies to use in challenging situations and when handling difficult participants.
- Participate in role-play activities, work through real-life scenarios, and leave with facilitation tools, techniques, and best practices you can apply immediately in your next group session.
