PROPOSALS   (You have 0 complete proposals, 2 incomplete proposals, and 0 withdrawn proposals)

OrgDev is a three-day learning experience, held in Atlanta from October 7-9, where 200+ individuals come together to learn and network with their peers through more than 20 educational sessions that encompass topics on belonging, talent retention, culture, overall workforce engagement and more. OrgDev is designed for individuals charged with the development of people, organizational culture, and talent management who are focused on learning how to humanize their OD programs and create a productive and engaged workforce.

Session Development

ATD education sessions are learning experiences first and foremost, and as such must be noncommercial in content and delivery. Your primary goal should be the attendee's learning experience rather than a showcase for your ideas, products, and services. You will gain exposure for those things by providing something tangible for participants to take away. The more you can put yourself in their place in developing your session, the better your chances will be of being selected and of receiving good evaluations from participants.

When developing your session, make sure the content is informative and relevant, with clear and immediate application to the learner's work. Be sure the content corresponds with the applications to the job. Consider including interactive and/or hands-on methods to support learning within the conference session framework.

Remember, you may submit up to two (2) proposals per individual or company. If more than two (2) proposals are submitted per individual or company, we will only consider the first two (2) submitted.

All work that you submit should be original to you. To the extent the work includes any third-party materials, ensure you have the appropriate permissions for use of those materials, and that the work does not infringe the rights of any third party, including copyright, trademark and/or right of publicity.

Deadline to submit is March 6, 2024.
