

Learning Activity 11–11: Q&A Review Session

OBJECTIVE

The objective of this learning activity is to

- ♦ allow learners to review the materials that have been discussed in the workshop.

MATERIALS

For this activity, you will need

- ♦ timer
- ♦ one index card per person
- ♦ flipchart and markers.

TIME

- ♦ 20 minutes

INSTRUCTIONS

1. Divide the class into two teams. You can allow the teams to create their own names or you can simply give them names such as the Blue Team and the Red Team.
2. Instruct each person to write one question on the card based on the materials that have been discussed during the day. These will be questions for the other team to try to answer. These should not be true/false or trick questions. They may use their notes. They may discuss these questions as a team. They have five minutes to compose all their questions. They will write the correct answer on the bottom of the cards. (This is important in case you forget a fact from the session. It happens!)
3. Draw two columns on a flipchart page and label one column for each team.

4. Collect the cards from each group. You will call out the questions from one group to the other group. The group will try to answer the questions as a team. Add a check to the team's column for each question they get correct. Move quickly through the questions. This is a timed event.
5. After five minutes, call time and call out questions to the other team. If some of the questions are the same as those asked of the other team, you may omit them.
6. When time is through, add up the checks to determine the winning team.
7. If you have more time, you can call out the remaining questions for an additional review. (As an alternate format, you can rotate back and forth between teams with one question at a time.)
8. Conduct a debriefing discussion, using these questions.

DISCUSSION QUESTIONS FOR DEBRIEFING

- ♦ Do you have questions about any of the information from this game?
- ♦ Did these bring to mind any other questions that you'd like answered?
